

TEEL - PLANZKEIOHUNA

Pretest

Pretest 1 (N=10)

Pretest 2 (N=10)

Main Experiment

Main Experiment 1 (N=10)

Main Experiment 2 (N=10)

The figure illustrates the experimental design, showing the sequence of events for each trial and the structure of the pretests and main experiments. The pretests consist of two blocks of 10 trials each. The main experiments consist of two blocks of 10 trials each. The trials are organized into blocks, with a 'Block' label indicating the start of a new set of trials. The sequence of events for each trial is: Stimulus presentation, Response, Feedback, and Inter-trial interval. The 'Main Experiment 1' section shows a block of trials with a 'Block' label. The 'Main Experiment 2' section shows a block of trials with a 'Block' label. The 'Main Experiment 1' section also includes a 'Block' label for the 'Inter-trial interval'.
